MEET THE AUCTIONEER

JAMIE McDONALD

Jamie McDonald spent 10 years on Wall Street mostly as a portfolio manager for Steve Cohen's Point 72. But in 2014, he swapped trading for performing and began hosting travel TV shows for Condé Nast Traveler and more recently writing and presenting finance videos for RealVision TV. In 2016 he got the opportunity to be an auctioneer for an evening, and he's never looked back. Jamie has now been hosting auctions and fundraisers in New York and all over the U.S. for six years raising millions for non-profits and schools in particular. Jamie is British but lives in Brooklyn with his wife and two daughters.

YOUR DOLLARS PUT INTO ACTION

Since awarding our first grant in 1994, the V Foundation has funded nearly 1,200 research grants totaling over \$310 million. Our Scientific Advisory Committee selects grant recipients through a highly competitive process. We invest in tenacious young investigators pursuing groundbreaking results to advance the fight against cancer.

OUR GRANT PROCESS

The V Foundation invites each of the **71+ NATIONAL CANCER INSTITUTE-DESIGNATED CANCER FACILITIES** to nominate researchers for funding consideration.

The V Foundation's **SCIENTIFIC ADVISORY COMMITTEE** and ad hoc expert reviewers evaluate and recommend the best proposals for funding.

Grant recipients are **AWARDED FUNDS** for their research. Progress reports are submitted annually.

Funding of critical cancer research brings us closer to **VICTORY OVER CANCER®**.

FUNDS RAISED WILL GO TOWARDS CANCER RESEARCH DEDICATED TO THERAPEUTIC RESISTANCE

Cancer patients have more treatment options now than ever. However, for many cancer patients, therapies can work for some time, but then they eventually stop working. Researchers call this phenomenon resistance to therapy, or drug resistance, and it's one of the most challenging issues facing the cancer community: our patients, researchers and clinicians.

Resistance happens when the cancer is initially treated successfully and later the cancer finds a way around the treatment regimen. When cancer cells resist the effects of treatment, they grow, whether in the original site or a distant location, causing disease recurrence, or patient relapse. Sometimes resistance develops quickly, within a matter of weeks of starting treatment. In other cases, it develops months, or even years later, so it is critical for scientists to develop alternative therapies that will have deeper and more long-lasting effects.

TODAY'S CANCER RESEARCH IS TOMORROW'S VICTORY.

- All dates and events are subject to Covid restrictions and requirements that the producing donor places on them. The V Foundation will do its best to redeem the auction lot as close to its original content as possible if Covid restrictions disrupt the original content.
- For federal income tax purposes, "Virginia Vine" is classified as a tax-exempt corporation under Internal Revenue Code Section 501(c)3. Bidders may be entitled to deduct a portion of their payments for auction lots as a charitable contribution. Each bidder should consult his or her tax advisor regarding deductibility for state and federal income tax purposes.
- IRS Regulations prohibit the use of Donor Advised Funds (DAFs) towards donations that can be perceived as a benefit. Therefore, it is not recommended that they be used to purchase auction items, and most DAFs will not allow splitting of deductible portions. Please check with your Fund provider regarding their policy before attempting to make such a payment to avoid potential inconvenience.
- Recipient of any package including alcohol must be 21 year of age or older.
- Shipping arrangements, expenses, and insurance are the responsibility of the buyer. Declared value is based on replacement value, not gavel value.

Winning bidders may contact the V Foundation for Cancer Research at events@v.org with questions, or to coordinate reservations included in an auction lot.

ONE TEAM, TOGETHER

It takes a team – from all backgrounds, perspectives, and experiences – to generate better ideas to solve the complex problems presented by cancer.

The V Foundation is committed to helping overcome racism, unconscious bias and disparities as part of our work to accelerate Victory Over Cancer®. One way we are doing so is through the Stuart Scott Memorial Cancer Research Fund, directed to research focused on racial disparities in cancer outcomes as well as funding scientists from underrepresented groups.

Progress in diagnosis and treatment of cancer has not been uniform across cancer types or groups of people. This must change. The need for dedicated funds to reducing cancer disparities remains great. Our goal is to reduce these disparities and improve the outcomes for underserved populations through game-changing cancer research.

“IT’S REALLY HARD TO GET HEALTH DISPARITIES FUNDED, ESPECIALLY AS A YOUNG BLACK FEMALE INVESTIGATOR. THE V FOUNDATION STIFF ARMED THAT AND SAID, ‘NO, WE’RE FUNDING THIS.’” - Jasmine McDonald, Ph.D.

The V Foundation for Cancer Research was founded by ESPN and legendary basketball coach Jim Valvano with one goal in mind: to achieve **Victory Over Cancer®**.

Research funded by the V Foundation is changing the cancer landscape and producing breakthroughs in cancer prevention, treatment, and remission. Since 1991, the cancer death rate in the United States has fallen by **33%** – but we still have more to do. Today’s cancer research is tomorrow’s victory.
